STRIKING PERFORMANCE

CB Supplies is proud to announce the launch of Vipert Potable & Radiant PERT Tubing, designed to perform as well or better than any other flexible plastic tubing in the market today.

IMPROVED FLEXIBILITY FOR EASIER INSTALLATION

With relaxed memory you'll experience less spring back than PEX for easier installation

STRENGTH & DURABILITY

Excellent hydrostatic strength at high temperatures and very high burst pressures

BUILT FOR EXTREME TEMPERATURES

Maintains excellent flexibility in extreme cold and hot environments

A SMALLER ENVIRONMENTAL FOOTPRINT

VIPERT is recyclable and requires less energy to be produced than PEX

25-YEAR WARRANTY

CB Supplies stands behind VIPERT with a 25-year warranty

EASY LINE IDENTIFICATION BY COLOUR

Eliminate hot and cold water cross connections

FRANKE

DESIGNED FOR THE WAY YOU WORK

Culinary Center is a complete kitchen solution with every accessory integrated and stored, bringing open concept and efficient work-flow to the most basic necessity in the kitchen; the sink.

franccanada.com

HIGH DESIGN & QUICK TURN?

Yeah. It's possible.

Design and build with freedom. Gastite® flexible gas piping doesn't hold you back...it flexes with you. A gas fireplace in the bathroom, gas lamps along a winding path, a gas cooktop as a focal point, all in a 15-story building with 32 units; Gastite is flexible and routes around objects. And with one easy to assemble fitting at the manifold and another at the appliance, installations are quick and efficient. That means high design with profitability. Commercial and residential. Natural gas and propane.

Fuel possibilities with Gastite. Visit gastite.com.

INSPIRE LASTING IMPRESSIONS

The all-new Lemora™ collection brings style with substance. This soft contemporary collection draws upon nature's inspiration with an ideal blend of clean lines with subtle arcs and edges.

- WaterSense® certified, 4.8Lpf High-Efficiency Toilet with a MaP® score of 1000 grams
- QuietClean™ Flush System delivers quiet operation and spotless, sparkling bowl

Gerber manufactures tried and true, high-quality kitchen and bathroom plumbing products that deliver style and long-lasting performance at an affordable price.

We have made the exciting decision to migrate all Danze® by Gerber products under the Gerber brand. Danze® by Gerber products have told their story through inspired designs and attainable expression of style for over 20 years. And, for nearly a century, the Gerber brand has built a heritage of trust based on the endurance of our products and our relationship with industry professionals. Taking the best of both brands brings a refreshed and elevated approach, paving the way for a unified, simplified, and fortified Gerber brand.

Vaughn® features a pull-down kitchen faucet and complementary prep faucet. Smooth curves and planes contrast angled elements, creating a transitional style to fit seamlessly in any space.

- SnapBack® retraction system with Grip Lock® weight allows customized retraction
- Durable ceramic disc valve allows for drip-free performance

Wash Germs and Worry Away with Hygienic Solutions

Wouldn't it be ideal to put an end to germs before handwashing starts? From sensor flush valves to faucets and soap dispensers, your users can go through motions without touching handles, tapping buttons, or transferring bacteria and pathogens.

Not only will you put your users' concerns at ease, but you'll be ready for any compliance regulations that come your way.

Turn your restroom into a hands-free experience with our Hygienic Solutions.

Touchless Technology

From faucets to soap dispensers, users can wash their hands by prompting sensors, not handles and pumps. Our precision technology detects the user without delay, wasted water or concern.

Enhance bio-security protocols with UV-C light sterilization

The BioShift® Pass-Through UV-C Chamber is an eco-friendly and cost-effective tool that uses ultraviolet C (UV-C) light sterilization to deactivate viruses and other pathogens.

The BioShift® chamber's UV-C light fixes key vulnerabilities found on everyday items like cell phones, keyboards and more by destroying the bacteria's ability to multiply and spread disease.

Learn more at www.once.lighting

Small Chamber

Ideal for small-scale use, limiting the import of pathogens through everyday items like cell phones, food, eyeglasses and tools.

Large Chamber

Great for facilities or entrances with a higher volume of people coming and going every single day.
